The immediate prior version of the specification of record is the specification filed on February 4, 2004 as amended by the changes detailed in the preliminary amendment filed on October 18, 2004. Appendix A is a version of the specification showing all changes relative to the immediate prior version of the specification of record. Appendix B is a clean version of the substitute specification excluding the claims.

With this substitute specification, Applicant has made the specification of record the specification filed on March 15, 2001 in the original non-provisional application Ser. Nr. 09/809,718. The present application claims priority to and incorporates by reference the 09/809,718 application. Accordingly, the substitute specification includes no new matter.
